Ryan Furrer

ryanfurrer.com | ryandotfurrer@gmail.com | 631-487-0580 | Islip, NY USA

Professional Summary

Transitioning from Procurement and Supply Chain to Front-End Web Development, I specialize in design-focused development. Proficient in React, NextJS, Astro, and Tailwind CSS, I bring transferable skills in project management, problem-solving, and more. Committed to continual learning, I actively seek to enhance my skills and stay updated on industry trends.

Experience & Projects

Portfolio & Blog | GitHub

Astro | Tailwind CSS | Storyblok CMS | Netlify | Design | SEO
- Developed the latest version of my portfolio integrating a self-hosted blog.
- Utilized Astro, Tailwind CSS, and Storyblok for the first time, gaining proficiency and appreciation for all three tools.
- Acquired valuable insights into both the technical aspects and design principles throughout the development process.

NextJS & Tailwind CSS Starter | GitHub

NextJS | Tailwind CSS | Vercel
- Designed a concise and opinionated template leveraging NextJS and Tailwind CSS.
- Developed the template for personal use and to expedite the initiation of new projects utilizing NextJS and Tailwind.
- Additionally, crafted a similar template tailored for Astro & Tailwind integration.

Gregory K. Williams

WordPress | HTML | CSS | JavaScript | Design | UI/UX | Photoshop
- Developed and currently maintains this WordPress site for a client.
- Skills used include but are not limited to: UI/UX design, HTML, CSS, JavaScript, asset management, and client relations.

Work Experience

TTM Technologies - Telephonics, Buyer

Farmingdale, NY | January 2023 - Current
- Managed suppliers and lead times to fulfill goods for customers and projects.
- Negotiated and implemented creative solutions both internally and externally to meet customer demand.
  - Through price negotiations, I saved the company around $210,000.00 in 2023 - 3x my salary.
- Spearheaded a significant project targeting material shortages across key suppliers for Complex Computer Assemblies (CCAs).
  - Successfully reduced lead time for CCAs from four years to one year for initial shipments.

Curtiss-Wright Corporation - Target Rock, Staff Buyer

Farmingdale, NY | February 2022 - January 2023
- Managed suppliers and lead times to fulfill goods the customer responsible for 75% of Target Rock's annual revenue.
- Utilized negotiation skills and creativity to address challenges and implement effective systems to meet customer demand.
  - Through price negotiations, I saved the company around $140,000.00 in 2022 - 3x my salary.
- Developed an inventory tracking system facilitating communication between shipping, planning, and procurement departments helping to minimize errors and late deliveries.

Telephonics, Repair Buyer → Buyer I

Huntington, NY | March 2020 - February 2022
- Started in March 2020 as a Repair Buyer; by May 2021 I was promoted to Buyer I.
- Managed suppliers and lead times to fulfill customer demand and needs.
